Asians came to the Americas thousands of years ago and established complex societies and empires. Our study of Early America begins this week with readings from our textbook and handouts. Here we will study the Early American's culture and history. The readings will be essential in understanding the in-class

instruction.

Before we approach the subject it is important that we identify the meanings of key terms used in the textbook and the class lectures. In order to improve our comprehension of the material this week we will define **these terms** at home using our class glossaries as well as our own dictionaries.

- The lists will shrink as we come across more of the same terms this year. All words from the text must be defined in our own words within our summary notes and they will be checked in class and counted as Home Work on the due dates of the notes.
